

Houghto-Draw 7002

Versatile, non-chlorinated emulsifiable drawing compound

DESCRIPTION

Houghto-Draw 7002 is an emulsifiable drawing compound free of sulfur and chlorine with excellent drawing capabilities. This product has shown great success on ferrous and non-ferrous metals with exceptional results on aluminum.

Houghto-Draw 7002 has excellent corrosion inhibition and is easily removed by conventional cleaning systems. This versatile, polar, water-soluble drawing compound can handle various metal gauges and metal forming operations by just adjusting concentration.

FEATURES

- Water soluble with excellent lubrication package for improved tool and die life
- Good corrosion package allows parts to be free of corrosion during storage
- Water soluble allows for easily cleaned parts and clean running operation

DATA (TYPICAL VALUES)

Houghto-Draw 7002	
Appearance	Clear, amber liquid
Odor	Bland
A.O. concentration factor	1.0 x reading = concentration
Viscosity @ 40°C (104°F)	1,800 SUS
Pounds per Gallon (60°F)	7.93
Specific Gravity	.952

HEALTH AND SAFETY

Refer to MSDS for proper handling and disposal. Please note that the MSDS includes handling, health and disposal information which should be passed on to your employees, and to anyone else who comes in contact with our product. Additional advice can also be obtained from your local Houghton representative.

NOTE: Read and understand all precautions on container labels before using this product.
