

Drawsol WM 990

Water Soluble Drawing Compound

DESCRIPTION

Drawsol WM 990 is a light to medium duty drawing and stamping compound. Drawsol WM 990 is designed for applications where surface residues need to be minimal.

Drawsol WM 990 residue is easily weldable, but yet gives good corrosion inhibition. The Drawsol WM 990 residue is dry and non-tacky.

Drawsol WM 990 can be used straight for medium drawing and stamping applications. When diluted with water from 3:1 - 10:1, Drawsol WM 990 performs well in light drawing and stamping operations.

FEATURES/ BENEFITS

- Versatile product, can be used neat or cut back with water
- Water soluble with excellent lubrication package for improved tool and die life
- Water soluble allows for easily cleaned parts and clean running operation
- Dry, non-tacky residue for ease of cleaning

DATA (TYPICAL VALUES)

Appearance	Milky white emulsion
Specific Gravity @15°C	1.00
pH of Concentrate	9.6 - 10.6
